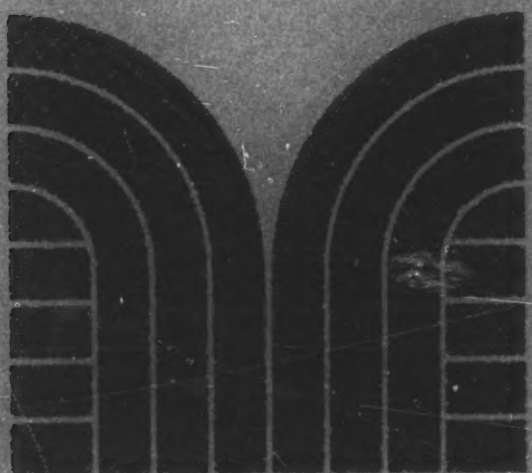
1986 - 87

NEW MEXICO STATE LIBRARY



LIBRARY STATISTICS

LIBRARY STATISTICS

Fiscal Year 1986-87

The New Mexico State Library is required by statute to collect data from all libraries in the state. The statistics in this document were taken from the 1986-87 annual reports of the public, community, academic, special and institutional libraries. In addition, State Library program statistics are included. 1980 Census data has been used in this report and has served as the basis for all per capita figures.

The help of librarians who have completed reports and made useful suggestions is gratefully acknowledged.

New Mexico State Library
325 Don Gaspar
Santa Fe, New Mexico 87503
January, 1988

*System total of staff for Albuquerque Public Library includes administration and technical services staff in addition to outlet staff listed on this page.

The following service measures are derived from data elements contained in the 86/87 annual reports from public and community libraries.

The formulas are taken from the new A.L.A. publication Output Measures for Public Libraries: A Manual of Standardized Procedures 2nd ed.

Circulation per capita is derived by dividing ANNUAL CIRCULATION by the population of the community served. (1980 census where available) Turnover rate is determined by dividing ANNUAL CIRCULATION by the holdings of the library. The percentage of the population registered is determined by multiplying BORROWERS by 100 and dividing the result by population.
